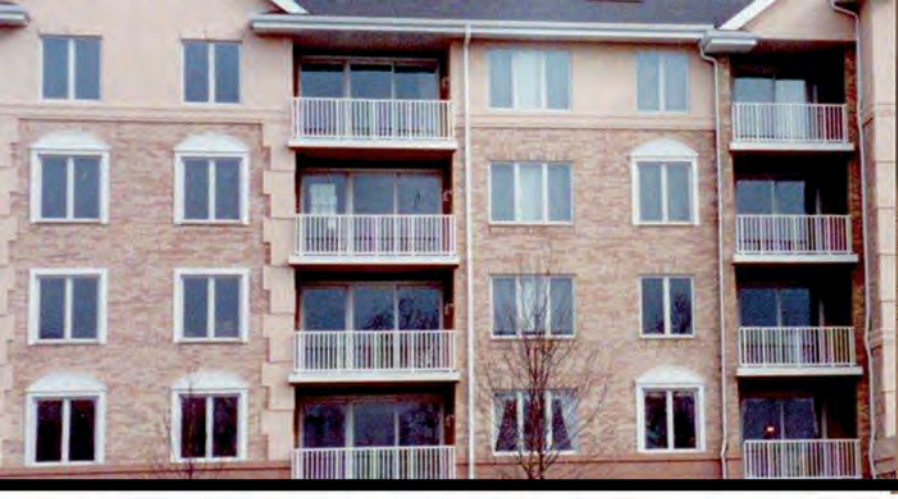
SĀFTRON

COMMERCIAL REINFORCED POLYMER RAILING

Advanced Railing Technology for the Next Century

Maintenance Free • ADA Compliant • Meets or Exceeds Building Codes

25 Years of Railing Excellence



All Saftron products come with a 10-Year Warranty.

The Saftron Advanced Technology RV series outperforms painted steel, powder coated and anodized aluminum, as well as other polymer railing systems in some of the harshest conditions year after year.

SPECIFIED & TRUSTED

General contractors and architects have specified and installed the Saftron Safety Railing System in a variety of projects throughout North America, including:

- Daytona Speedway
- Disney Theme Parks
- Hilton, Ramada, Sheraton Hotels

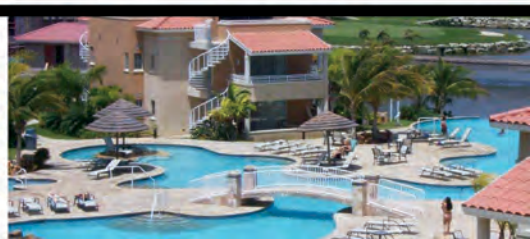
CONVENIENT

The Saftron Safety Railing System can be shipped anywhere in the world and packaged to your specifications for flexible design options.

- Individual components
- Boxed standard sections and posts
- Custom fabricated components ready for assembly
- Factory assembled sections ready for installation



Maintenance-Free. Long-Lasting. Beautiful.

Saftron's polymer railing is made with a high concentrate of UV inhibitors and impact modifiers to prevent fading, impacts and other harsh environmental conditions.

Saftron Safety Railing is beautiful to look at the day it is installed and because it is maintenance free the railing will maintain that new look year after year.

Other benefits of our railing system include:

- **No painting, rusting, peeling or corrosion**
- **Cool to the touch**
- **Withstands the damaging effects of salt and chemicals – Ideal for coastal installations!**
- **Impervious to abuse and other harmful conditions**
- **Color is all the way through, will not pit or scale**
- **Nonconductive**
- **Concealed fasteners**
- **ADA compliant**
- **Meets or exceeds all building codes**
- **Class A1 fire and smoke rating**
- **And easy to clean!**

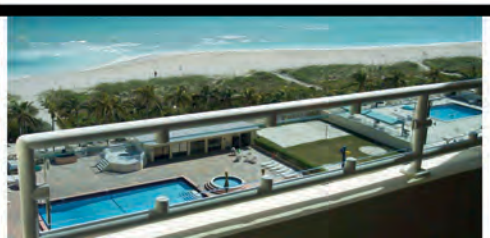
AN INVESTMENT IN SAFETY

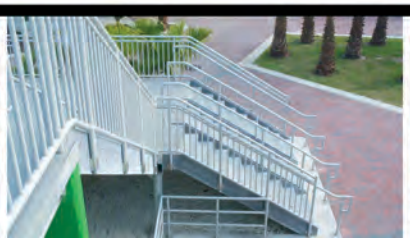
Backed with an industry leading ten-year warranty, the Saftron Safety Railing System is built to last and provides you with years of worry-free safety.

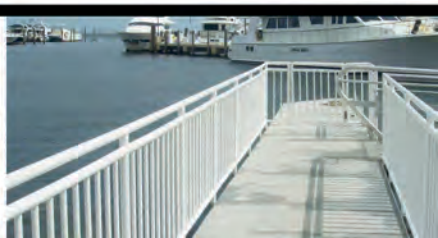
Saftron's reinforced smooth and continuous railing system has superior structural integrity and meets or exceeds the most demanding commercial, industrial and residential requirements.

The durability of the Saftron Safety Railing System makes it ideal for a variety of applications, including:

- **Condominiums**
- **Industrial Buildings**
- **Water Treatment Plants**
- **Municipal Buildings**
- **Schools and Universities**
- **Hotels and Resorts**
- **Amusement and Water Parks**
- **Factories and Power Plants**
- **Parking Garages**
- **Museums and Libraries**
- **Stadiums and Zoos**







Saftron is a vertically integrated manufacturer. We control the entire manufacturing process, which allows us to ensure quality and keep costs down.

- **We specify high-grade resin**
- **Railing is reinforced with aluminum or steel**
- **Our products are made in America**
- **All Systems are fabricated with concealed fasteners**
- **We do our own extrusion and molding**
